Re: ML350 G5: Trying to add second processor problem Thank you so much! Yes, it has no problem or logs besides the fans with one processor installed and it runs fine with either CPU only installed into socket 1 and I did try swapping PPM's with the working one with the same result.

Solved: ML350 G5: Trying to add second processor problem ...

The ML350 G5 Storage Server leverages industry-standard components to protect your investment and integrates seamlessly into HP ProLiant or StorageWorks environments. It offers four capacity points and has the flexibility to support either SATA or SAS hard drives; SATA-based models are available with 960Gb, 1.5TB or 3TB of raw capacity and the SAS model is available with 1.8TB of raw capacity.

HP ProLiant ML350 G5 User Manual

Today we found one of our HP Proliant ML350G5 down. Physical inspection revealed the following: Power Led: Green; Internal Health LED: Red. External Health LED: Red. Power Supply Led: Off; Trying the change something using the power button doesn't do anything. So we removed the power cord and booted the server normally.
