Identification of barriers and facilitators to the implementation of an opioid-alternative protocol to treat patients with migraine in the emergency department. ... was based on a thorough review of the literature and current evidence-based migraine and opioid prescribing guidelines. The intended outcome of this project was threefold.

Identification of barriers and facilitators to the ...

Thirteen studies reported barriers to the identification and management of CKD in the 'knowledge' domain [6, 8,9,10, 24, 25, 27,28,29, 31, 32, 34, 35, 37]. A commonly reported barrier was a dissatisfaction with the current evidence based guidelines for the management of CKD [6, 8, 10, 24, 25, 27, 28, 31, 32, 34, 35]. The theme of dissatisfaction with guidelines covered a range of concepts including where participants found guidelines confusing, or felt that they were not appropriate.

Barriers and enablers to detection and management of ...

Barriers to change can exist at various levels of the health care system and include structural barriers (e.g., lack of resources, financial disincentives), organizational barriers (e.g., inappropriate skill mix, lack of facilities or equipment), peer group barriers (e.g., local standards of care not in line with desired practice), professional–patient interaction barriers (e.g., communication and
