~~Code of Practice for In-service Inspection and Testing of ...~~

By the time the 4 th edition was published in 2012, the IEE had a name change to the IET, Institution of Engineering and Technology. We often get asked if it's okay to use an earlier version of the Code of Practice for the City & Guilds course, so I thought it would be useful to look at the changes that have been made to the guidance on PAT testing throughout the 4 editions. Earth Continuity ...

~~Changes to the IET Code of Practice PAT Testing Courses ...~~

This drove the IET to introduce the 4th Edition of the Code of Practice for In-service Inspection and Testing of Electrical Equipment. This industry accepted code looked to clarify responsibility and give clear guidelines to companies who were looking to maintain compliance with the Electricity at Work regulations, 1989.

~~Pocket guide to PAT testing IGSWWW~~

The insulation testing voltage has also been revised, taking into account the design of modern electrical and electronic equipment. A significant change (perhaps the most significant, depending on your view!) is a complete review of the frequency of testing, currently exemplified in Table 7.1 of the 4th Edition.

~~IITEE 4th Ed, Code of Practice for In-service Inspection ...~~

PAT Testing Frequency There are no set statutory periods for formal visual inspection and test. The maintenance regime should be appropriate to the environment and duty for which the equipment is used. Electrical testing in a low-risk area e.g. in an office would be less frequent than in, say, a harsh industrial environment.
