All-new printing collecting the first 14 issues of the critically acclaimed series, now heading to live-action on Amazon Prime! This is going to hurt! In a world where costumed heroes soar through the sky and masked vigilantes prow! the night, someone's got to make sure the "supes" don't get out of line. And someone will! Billy Butcher, Wee Hughie, Mother's Milk, The Frenchman, and The Female are The Boys: A CIA-backed team of very dangerous people, each one dedicated to the struggle against the most dangerous force on Earth - superpower! Some superheroes have to be watched. Some have to be controlled. And some of them - sometimes - need to be taken out of the picture. That's when you call in The Boys! After the opening story arc introducing Hughie to the team (issues 1-6), Dark avenger Tek-Knight and his ex-partner Swinging are in trouble (issues 7-14). Big trouble. One has lost control of his terrifyingly overactive sex-drive, and the other might just be a murderer. It's up to Hughie and Butcher to work out which is which, in Get Some. Then, in Glorious Five-Year Plan, The Boys travel to Russia - where their corporate opponents are working with the mob, in a super-conspiracy that threatens to spiral lethally out of control. Good thing our heroes have Love Sausage on their side. Featuring some ever-so-slight tweaks the creators have meticulously restored, The Boys Omnibus Volume 1 also features bonus art materials, the script to issue #1 by Garth Ennis, a complete cover gallery, and more!

From the bestselling author of Blood, Sweat, and Pixels comes the next definitive, behind-the-scenes account of the video game industry: how some of the past decade's most renowned studios fell apart;and the stories, both triumphant and tragic, of what happened next. Jason Schreier's groundbreaking reporting has earned him a place among the preeminent investigative journalists covering the world of video games. In his eagerly anticipated, deeply researched new book, Schreier trains his investigative eye on the volatility of the video game industry and the resilience of the people who work in it. The business of videogames is both a prestige industry and an opaque one. Based on dozens of first-hand interviews that cover the development of landmark games:Bioshock Infinite, Epic Mickey, Dead Space, and more;on to the shocking closures of the studios that made them, Press Reset tells the stories of how real people are affected by game studio shutdowns, and how they recover, move on, or escape the industry entirely. Schreier's insider interviews cover hostile takeovers, abusive bosses, corporate drama, bounced checks, and that one time the Boston Red Sox's Curt Schilling decided he was going to lead a game studio that would take out World of Warcraft. Along the way, he asks pressing questions about why, when the video game industry is more successful than ever, it's become so hard to make a stable living making video games;and whether the business of making games can change before it's too late.
