This area of CBT competency includes successfully structuring and pacing the treatment via the use of well-constructed and conscientiously followed

## **Implementing Cognitive-Behavioral Therapy Strategies and ...**

Cognitive behavioral interventions (CBI) are based on the simple principle that thinking (an internal behavior) controls overt actions (external behavior). Therefore, through CBI programs (or curricula), offenders learn new skills and new ways of thinking that can lead to changes in their behavior and actions, and ultimately affect their criminal conduct. CBI programs use a

## **COGNITIVE BEHAVIORAL INTERVENTIONS (CBI)**

In general, behavioral therapies involve carefully observing current behaviors and then targeting specific ones for change. Therapists employ various techniques to increase positive or decrease negative behavior, and constantly collect data on success and failure. That way it is clear whether the child is making progress.
