Most annual
reports will
present two
balance sheets -
one for the
group and one

for the
‘company’ (i.e.
the holding
company). This
is a company law
requirement. The
group balance
sheet includes
all the assets
and liabilities
of the holding
company and the
assets and
liabilities of

Understanding
Annual Reports
and Company
Accounts

As an investor,
you should be
looking at the
debt:equity
ratio of the
company.

Debt:Equity

Acces PDF Interpreting

ratio = long
term liabilities
/ owner's

equity. For
example, say
that a company
has debt of
£6000 and equity
of £15,900. The
ratio would
equate to 0.38
(6000/15900).

This means that
the company has

three times more
equity to debt.
