Well, this is a strange product. Depending on availability, this can be a pricey item when compared to Journey To The Centre Of The Earth (Deluxe Edition). They came out around the same time, so my interest was in the differences between the two. In short, you can buy a two disc Deluxe Edition, or this four disc Super Deluxe version.

friends, neighbors and colleagues and can't wait to hear what you have to say about it.

As one of the many installments in Jules Verne's Voyage Extraordinaire series, Journey to the Center of the Earth promises high stakes and thrilling adventure. When Professor Otto Lidenbrock bought an ancient runic manuscript, which chronicles the lives of Norwegian Kings, he did not expect to learn of anything but the history of Icelandic leaders. However, upon further inspection, Lidenbrock and his nephew, Axel, find that the manuscript includes a coded message written by a 16th century alchemist. After rigorous translating and decoding, Axel and Lidenbrock discover the content of the note, in which the author reveals that it is possible to travel to the center of the Earth through volcanic passages. When Lidenbrock heard the news, he immediately started preparations to start the journey, though Axel was skeptical. When Lidenbrock's will proves to be more powerful than his nephew's doubt, the two decide to make the journey, recruiting an Icelandic tour guide named Hans on the way. As the three men make their way to inactive volcanic tubes, they embark on a high-stake adventure, facing dangers of cave-ins, subpolar tornados, an underground ocean and prehistoric creatures. The three men stay strong in their adventure, knowing the risky journey promises superior knowledge and acclaim, granted that they make it out alive. With the combination of science fiction and the adventure genre, Jules Verne created a novel that captures the attention of his audience. Originally published in 1864, Journey to the Center of the Earth still provides modern readers with entertainment and insight with its detailed and imaginative prose. Journey to the Center of the Earth can be read independently or as a companion to the other titles of Jules Verne's critically acclaimed series, Voyage Extraordinaire. This edition of Journey to the Center of the Earth by Jules Verne now features an eye-catching cover design and is printed in a stylish and readable font, crafting an assessible and pleasant reading experience for modern audiences.

A JOURNEY TO THE CENTER OF THE EARTH, - ILLUSTRATED EDITION - by Jules Verne is a classic tale of adventure as Professor Otto Lidenbrock and his guide Hans descend into the Icelandic volcano and emerge on the other side of the earth in southern Italy. The travels are exciting and adventurous by the author who is famous for his classic tales of adventures: Twenty Thousand Leagues Under the Sea; and Around the World in 80 Days. Sure to be enjoyed and remembered. Recommended by The Gunston Trust for Young Adults & Adults.

Combines historical research, scientific fact, and selections from science fiction to explore the Earth's galaxy--the Milky Way

The intrepid Professor Lindenbrock embarks upon the strangest expedition of the nineteenth century: a journey down an extinct Icelandic volcano to the Earth's very core. In his quest to penetrate the planet's primordial secrets, the geologist—together with his quaking nephew Axel and their devoted guide, Hans—discovers an astonishing subterranean menagerie of prehistoric proportions. Verne's imaginative tale is at once the ultimate science fiction adventure and a reflection on the perfectibility of human understanding and the psychology of the questor. As David Brin notes in his Introduction, though Verne never knew the term "science fiction," Journey to the Centre of the Earth is "inarguably one of the wellsprings from which it all began."

There's a light within you, a light that wants you to shine your brightest. However, with the burdens of life weighing you down during a period of uncertainty, insecurity, hurtful experiences, and negative thoughts, it remains hidden. If you take a journey to move from stagnancy to discovery, you will find that light inside you, for that light is God, intending for you to live a life that reflects Him. I know about the journey because I took it, and I know about the light because I found it. In this book, I'm sharing my journey with you, together with the concrete steps that I've learned on my way. I used to carry my own baggage, too, filled with "failure",

"insecurity", "shame", "brokenness", and even a carry-on of "unhappiness". But God tells us to come to him when we're weary and burdened. He urges us to take on His yoke and find rest, for His yoke is easy, and His burdens light (Matthew 11:28-30). What I've learned is that we cannot take on His yoke if we're burdened down with our own baggage, so I've slowly loosened my hold on the things of my past that kept me trapped and searched for God instead. My "failure" changed into success, "insecurity" into confidence, "shame" into honor, and "broken" into healed. I found my light, and I'm telling my story so that you can find it too, together with your own Greatness, and walk in it like God intends you to do.
