The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

For courses in criminal justice administration Justice Administration: Police, Courts, and Corrections Management is a comprehensive and contemporary text that examines relevant facets of, and current topics relating to, criminal justice administration. It is written with a unique, real-world flavor and allows readers to apply their knowledge through "Deliberate and Decide" challenges included in every chapter. The logical organization of the text provides readers with a comfortable flow of information, beginning with a basic examination of the study and scope of justice administration and rights of criminal justice employees, followed by a focus on police, courts, and corrections agencies. It concludes with considerations of ethics, special challenges, financial administration, and technologies. Two appendices contain 28 case studies that challenge readers' knowledge and their application of related materials. The Eighth Edition has been substantially reorganized and includes updated topics in every chapter as well as new case studies.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exonerated. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Doctoral Thesis / Dissertation from the year 2016 in the subject Law - European and International Law, Intellectual Properties, grade: 4.0 - 1. , language: English, abstract: This research conducts an exploratory study of the individual leadership competences of judicial actors comprised of the Presidency of the Court, Office of the Prosecutor, and Registry and its support staff within the International Criminal Court (ICC) located at The Hague, Netherlands. The research objectives of this study are not only to identify leadership competencies of current and former president of the court, office of the prosecutor, and registry or court administrator and their support staff but also to generate a body of knowledge that explores judicial actors as leaders within the national and international judicial systems. By developing a conceptual roadmap this study benefits the international community by creating a body of knowledge that bridges the disciplines of leadership and judicial processes that addresses the emerging complexity and global significance of transitional justice in post conflict environments. This study lays the foundation for transitional justice scholar-practitioners to determine the role leadership traits and competencies play within the international judicial community to prosecute human rights violations, protect victims from further human rights violations, and sustain the rule of law in a post conflict environment. The aim of this study is to advance knowledge in the field of global leadership by introducing the application of institutional and organizational leadership competences into the discipline of International Law. Also, to generate new knowledge of the critical role that individual leadership traits and competencies play as transitional justice practitioners seek to achieve national reconciliation in a post conflict environment. In other words, this study will make a significant contribution to the fields of leadership and international justice by understanding the role that individual leadership traits play within the ICC as transitional justice theorists seek to understand and develop legitimate legal capacities in a post conflict environment.
