The cardiovascular system is sometimes called, simply, the circulatory system. It consists of the heart, which is a muscular pumping device, and a closed system of vessels called arteries, veins, and capillaries. As the name implies, blood contained in the circulatory system is pumped by the heart around a closed circle or circuit of vessels as it

the tissues. The cardiovascular system includes the heart, blood vessels, and blood. We will look first at the heart and the blood vessels, and then at the blood that flows through that closed circuit (Figure 11.1). The heart resides in the center of the thoracic cavity, literally hanging by the great blood vessels that deliver and remove ...
