The La Specola Museum is a branch of the Natural History Museum of the University of Florence and is one of the oldest science museums in Europe, built in 1775 on the orders of Grand Duke Pietro Leopoldo with the aim of gathering the natural treasures collected by different generations of the Medici family, such as fossils, animals, minerals and exotic plants.

La Specola Zoological Museum | Visit Tuscany

The Museum of Zoology and Natural History, best known as La Specola, is an eclectic natural history museum in Florence, central Italy, located next to the Pitti Palace. The name Specola means observatory, a reference to the astronomical observatory founded there in 1790. It now forms part of the Museo di Storia Naturale di Firenze.

La Specola - Wikipedia

La Specola is unapologetically weird, creepy, and a bit dusty. The taxidermy is as offputting as the anatomical wax figures, which is the fun of this lovely old museum. Not to be missed is the hippopotamus that was sewn up by someone who had, evidently, never seen a hippopotamus in their life and make sure you take a good look at the orangutan, whose face is one of the most unnerving things I've seen in my life. ...
