DFE Pharma Pharmatose\u2122 and Lactochem\u2122 are DFE Pharma ' s brand names for pure white and highly consistent crystalline, milled lactose monohydrate grades. Lactose is mechanically milled to varying degrees of particle sizes allowing pharmaceutical companies to choose the grade best fitting their formulation needs. Due to its fine nature and relatively high surface area, milled lactose compacts well.

Pharmatose 200M \u2013 DFE Pharma Estore Press Release Inhalation Lactose Market Pivotal Point and Competitive Reach(2021-2030) | | DFE Pharma, Kerry, Meggle Pharma Published: Nov. 10, 2020 at 4:48 a.m. ET

Inhalation Lactose Market Pivotal Point and Competitive ... SuperTab\u212230GR Granulated lactose from DFE Pharma - Product Description and Details SuperTab\u212230GR Granulated lactose from DFE Pharma Granulated lactose is the least hygroscopic of all grades of direct compression lactose. This property makes SuperTab\u2122 30GR lactose ideal for formulations where control of total water content is important.

SuperTab\u212230GR Granulated lactose from DFE Pharma - Product ... SuperTab\u2122 11SD is a highly consistent, spray-dried monohydrate lactose enabling efficient tableting by offering free flow properties. It is developed to combine the high compactability of finely milled lactose with good flow properties of spherical spray-dried particles. Especially for low dose formulation SuperTab\u2122 11SD is well suited to ensure content uniformity.

SuperTab 11SD \u2013 DFE Pharma Estore DFE Pharma is the only global excipient manufacturer offering it ' s customers both lactose and microcrystalline cellulose products for development of pharmaceutical formulations. Combination of Pharmacel\u2122 with one of the lactose grades offered by DFE Pharma provides additional benefit to formulations, by achieving the perfect combination of brittle and plastic excipient behaviour.

Pharmacel 102 \u2013 DFE Pharma Estore DFE Pharma is the only global excipient manufacturer offering it ' s customers both lactose and microcrystalline cellulose products for development of pharmaceutical formulations. Combination of Pharmacel\u2122 with one of the lactose grades offered by DFE Pharma provides additional benefit to formulations, by achieving the perfect combination of brittle and plastic excipient behavior.

Pharmacel 101 \u2013 DFE Pharma Estore DFE Pharma now offers its trusted quality excipients with the convenience of ordering online in smaller quantities, drastically reducing lead times. Available are Microcrystalline Cellulose 101 and 102, Lactose 200M, Croscarmellose Sodium, Superdisintegrant, Spray Dried Lactose and Anhydrous Pharmaceutic Lactose.

Available Excipients \u2013 DFE Pharma Estore Pharmaceutical grade lactose is produced to meet rigid specifications, such as specific form and size distribution, monohydrate, crystalline, 40 mesh to 325 mesh, and a spray-dried mixture of crystalline and amorphous lactose for all applications. Factors that drive the market growth are the Increasing demand for dry powder inhalers (DPI) products, ...

Pharmaceutical Grade Lactose Market Share, Trends, Growth ... SuperTab\u212214SD Spray-dried lactose from DFE Pharma Spray-dried Lactose is a finely milled lactose monohydrate which is suspended in water, and spray-dried to give spherical agglomerates of crystalline lactose monohydrate in a matrix of amorphous lactose. The result is a product that both flows and compresses well.
