into five cross-curricular strands, encouraging links to other subjects. Comprising 16 fiction and ten non-fiction titles, the 25 books at each level span a two-year reading age and the three-tier levelling system within each level facilitates an accurate match of reading ability and text. The full-colour readers are accompanied by teacher's guides and resource sheets to help teachers get the most out of their guided reading and writing sessions.

Dreamweaver is the standard by which site designers and managers handle the many components required to run today's typical web presence. The Portfolio Series addresses this powerful tool the same way it does other Creative Suite applications -- the way one has to in the real world of design and site management. Purely project-based, the book offers eight hands-on, step-by-step assignments exactly as they would be handed to someone in the field. Each assignment addresses workflow, task, and process requirements, finishing with a site that works the way it's supposed to. The title provides self-learners, interested readers, students, and professional instructors detailed instructions on how to master the application.
