These are the financial institutions that are the backbone of the Black community that provide loans to the Black community for businesses, education, automobiles, and home mortgages. And finally, he resolutely encourages White people to support government reparations to Black Americans who are descendants of Black men and women, who were enslaved from 1619 to 1865. In *Letters to My White Male Friends*, Dax-Devlon Ross speaks directly to the millions of middle-aged white men who are suddenly awakening to race and racism. White men are finally realizing that simply not being racist isn't enough to end racism. These men want deeper insight not only into how racism has harmed Black people, but, for the first time, into how it has harmed them. They are beginning to see that racism warps us all. *Letters to My White Male Friends* promises to help men who have said they are committed to change and to develop the capacity to see, feel and sustain that commitment so they can help secure racial justice for us all. Ross helps readers understand what it meant to be America's first generation raised after the civil rights era. He explains how we were all educated with colorblind narratives and symbols that typically, albeit implicitly, privileged whiteness and denigrated Blackness. He provides the context and color of his own experiences in white schools so that white men can revisit moments in their lives where racism was in the room even when they didn't see it enter. Ross shows how learning to see the harm that racism did to him,

and forgiving himself, gave him the empathy to see the harm it does to white people as well. Ultimately, Ross offers white men direction so that they can take just action in their workplace, community, family, and, most importantly, in themselves, especially in the future when race is no longer in the spotlight.

"These magnificent letters, meticulously set up and annotated, show us aspects of Kafka that were only hinted at in earlier collections and help us trace his development from unhappy young law student and insurance administrator to novelist and short-story writer of originality and genius." --Publishers Weekly "When we turn from Kafka's books to his letters we have a series of self-portraits desperate and courageous, always eager and warm in feeling; the self is lit by fantasy and, of course, by drollery. His candor is of the kind that flies alongside him in the air. He was a marvelous letter writer." --V.S. Pritchett, *The New York Review of Books* "These letters are like messages from the underground, from the dark side of the moon, presenting aspects of Kafka that would have died with his friends. We meet alternately Kafka the artist, friend, son, father figure, marriage counselor, literary critic, insurance official. . . . A full portrait, and a significant contribution to Kafka scholarship." --*Smithsonian Magazine* "An inside view of a writer who, perhaps more
