This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.

14th February is Valentine's Day - a day dedicated for love. Love creates life, sustains life and transforms life and one has to experience all this, without which life has no meaning. The protagonist of this story, Sanjay, is the only son of a middle-class family in Chennai. He is studious and intelligent and is living a dream life, topping in his board examinations, studying at IIT and getting to the magical paradise of America for a bright future. The only thing that has eluded him in this journey is true love, for which he craves and when he thinks he has met the woman of his dreams and he has everything in life, his world collapses, as he is condemned as an introvert, predictable and a boring guy and his partner leaves him. That changes his life forever and he becomes depressed. He heads back to his hometown, a decision that makes him understand the tough realities of life. Now having returned from America, Sanjay finds himself mercilessly condemned and ridiculed by his own fellowmen. The mentality of the people pushes him into further depression and he becomes a recluse. That's when an angel walks into his life, transforms him and leads him to all the good things in life. He falls in love and on Valentine's Day, as he waits for his angel, he realises the value of this true love, the love that will last forever...

Contemporary Black American Cinema offers a fresh collection of essays on African American film, media, and visual culture in the era of global multiculturalism. Integrating theory, history, and criticism, the contributing authors deftly connect interdisciplinary perspectives from American studies, cinema studies, cultural studies, political science, media studies, and Queer theory. This multidisciplinary methodology expands the discursive and interpretive registers of film analysis. From Paul Robeson's and Sidney Poitier's star vehicles to Lee Daniels's directorial forays, these essays address the career legacies of film stars, examine various iterations of Blaxploitation and animation, question the comedic politics of "fat suit" films, and celebrate the innovation of avant-garde and experimental cinema.

This book takes a practical approach, with step-by-step instructions. It doesn't hesitate to talk about the technologies, but takes time to explain them (to an Excel power-user level). There is a good use of graphics and code where necessary. If you are a business analyst – somebody involved with enterprise IT but at a high level, understanding problems and planning solutions, rather than coding in-depth implementations – then this book is for you. If you are a business user who needs to write rules, or a technical person who needs to support rules, this book is for you. If you are looking for an introduction to rule engine technology, this book will satisfy your needs. If you are a business user and want to write rules using Guvnor/JBoss IDE, this book will be suitable for

you. This book will also suit your need if you are a business user and want to understand what Drools can do and how it works, but would rather leave the implementation to a developer.

The Chainsaw Operator's Manual is an essential safety tool for chainsaw operators. It is the ultimate guide to basic chainsaw operating techniques covering safety, maintenance and cross-cutting, but not tree felling. Detailed diagrams illustrate horizontal, vertical and boring cuts, as well as trimming and cross-cutting techniques. Safety considerations are discussed, including workplace safety, occupational hazards, kick-back and identifying dangerous trees. An explanation of the 'tension' and 'compression' forces in timber is also provided to help you understand where to begin cutting to avoid jamming the saw. The book covers chainsaw maintenance in detail, explains all aspects of the equipment and helps you select the right chainsaw and personal protection equipment for your needs. Trouble-shooting charts are included to help you solve operating problems. This manual has been updated to take into account the most recent changes in nationally accredited competency standards. It is a must-have for anyone operating a chainsaw.

In today ' s digital environment the workplace is characterised by individuals creating information perhaps independently of formal systems, or establishing new systems without knowledge of information management requirements. This book explains and explores the concept of organisational culture, specifically within the domain of information management. It draws on the author's wide-ranging practical experience in different workplaces and uses research findings from cross-cultural studies of information management. Uses research findings from cross-cultural studies of information management Provides tools to develop practical and realistic solutions to real-world problems Draws on the author ' s wide-ranging practical experience in different workplaces.

"One icy winter's evening in Budapest, a man runs straight into John Taylor as he walks home through the narrow streets. John falls over into the snow and looks up at the man's face. 'I felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry.' Who is the man, and how will John's life change?

Starts with the basic human factors that affect farm equipment safety. Tells how to recognize potential hazards & understand what causes them. Illustrates major points using colorful diagrams & photos. Broadens the concept of machine safety by using a positive, in-depth approach. Widely useful for teaching safe machinery operation to youth & adult readers. This book was, to our knowledge, the first major agricultural machinery safety text ever published. CONTENTS: Agriculture-Hazardous Occupation, Be Your Own Safety Director, Man & His Machines, Be Prepared for the Unexpected, Communication of Safety Messages, Human Factors in Safety, Common Machine Hazards, Protective Equipment, Machine Service Hazards, Safe Use of Shop Tools, Safe Tractor Operation, Tractor Safety Checklist, Safe Tillage & Planting, Safe Use of Crop Chemicals, Safe Hay & Forage Operations, Grain-Harvesting Safety, Cotton- & Vegetable-Harvesting Safety, Safe Materials Handling & Feeding, Safety with Farm Accessories, OSHA & Hazardous Occupation Laws.
