~~Mathematical Proofs: A
Transition to Advanced
Mathematics ...~~

Mathematical Proofs really is a transition to advanced math, and I will definitely feel more complete studying advanced level calculus after reading this text. It offers a nice intro to set theory and logic that leads up to the basics of proving, and finishes off with the theoretically important proofs that found calculus, number theory and group theory.

Description. Mathematical Proofs: A Transition to Advanced Mathematics, 2/e, prepares students for the more abstract

mathematics courses that follow calculus. This text introduces students to proof techniques and writing proofs of their own. As such, it is an introduction to the mathematics enterprise, providing solid introductions to relations, functions, and cardinalities of sets. KEY TOPICS:

Communicating Mathematics, Sets, Logic, Direct Proof and Proof by Contrapositive, More on Direct ...
