types of migration. The earliest migrations spread humans across the globe. Over the centuries, as our cultures, societies, and technologies evolved in different material environments, migrants conflicted, merged, and cohabited with each other, creating, entering, and leaving various city-states, kingdoms, empires, and nations.

another, particularly different countries, with the intention of settling temporarily or permanently in the new location. It typically involves movements over long distances and from one country or region to another. Historically, early human migration includes the peopling of the world, i.e. migration to world regions where
