Langenhorst: There are a lot of moving parts in a wire EDM, many of them small and delicate, and others that need to be clean to sense if things are working properly. Because the machine cuts with a shaped electronic pulse, the cutting technology is tuned to a clean machine and will change as the machine gets dirty and the contact point wears.

Vols. for 1970-71 includes manufacturers' catalogs.

This book is intended for new owners, engineers, technicians, purchasing agents, chief operating officers, finance managers, quality control managers, sales managers, or other employees who want to learn and grow in metal manufacturing business. The book covers the following: 1. Basic metals, their selection, major producers, and suppliers' websites 2. Manufacturing processes such as forgings, castings, steel fabrication, sheet metal fabrication, and stampings and their equipment suppliers' websites 3. Machining and finishing processes and equipment suppliers' websites 4. Automation equipment information and websites of their suppliers 5. Information about engineering drawings and quality control 6. Lists of sources of trade magazines (technical books that will provide more information on each subject discussed in the book)

Cars, Automobility and Development in Asia explores the nexus between automobility and development in a pan-Asian comparative perspective. The book seeks to integrate the policies, production forms, consumption preferences and symbolism implicated in emerging Asian automobilities. Using empirically rich and grounded analyses of both comparative and single-country case studies, the authors chart new approaches to studying automobility and development in emerging Asia.
