Monetary Policy in Dollarized Economies. Dollarization - the holding by residents of a substantial portion of their assets in foreign-currency-denominated assets- is a common feature of developing and transition economies, and therefore typical of many countries with IMF - supported adjustment programs.

I Overview - Monetary Policy in Dollarized Economies-

policy, suffice it to say that there is a loss of monetary policy effectiveness when dollarization is important, since monetary policy instruments principally affect the shrinking share of domestic currency assets and liabilities. In addition, there is a loss in seigniorage that can be quite significant in economies with growing money demand.

MONETARY POLICY IN DOLLARIZED ECONOMIES

Section 4 discusses the complexity and effectiveness of monetary policy in dollarized economies. To this end, the pass-through of nominal exchange rates on prices are analyzed, the monetary aggregates that should be used as intermediate targets are discussed, and the alternative of inflation targeting in dollarized economies is explored.

Monetary Policy in Dollarized Economies (Occasional Paper (International Monetary Fund) Book 171) eBook: Adam Bennett, Eduardo Borensztein, Tomás J. T. Baliño: Amazon.co.uk: Kindle Store

Monetary Policy in Dollarized Economies (Occasional Paper)-

Abstract This paper compares the welfare costs of business cycles in a dollarized economy to those arising in economies in which monetary policy takes the form of inflation targeting, money growth rate pegs, or devaluation rate rules. The analysis is conducted within an optimizing model of a small open economy with sticky prices.

Stabilization Policy and the Costs of Dollarization

Quispe, (2000) find that dollarization does limit the monetary authority from implementing monetary policy, such as inflation targeting, to attain price stability goal. Generally, monetary policy is transmitted through five channels, namely interest rate, exchange rate (both direct and indirect), credit, asset prices and expectation, to inflation
