discover why Czolgosz rose up to kill his president.

A SWEEPING TALE OF TURN-OF-THE-CENTURY AMERICA AND THE IRRESISTIBLE FORCES THAT BROUGHT TWO MEN TOGETHER ONE FATEFUL DAY In 1901, as America tallied its gains from a period of unprecedented imperial expansion, an assassin's bullet shattered the nation's confidence. The shocking murder of President William McKinley threw into stark relief the emerging new world order of what would come to be known as the American Century. *The President and the Assassin* is the story of the momentous years leading up to that event, and of the very different paths that brought together two of the most compelling figures of the era: President William McKinley and Leon Czolgosz, the anarchist who murdered him. The two men seemed to live in eerily parallel Americas. McKinley was to his contemporaries an enigma, a president whose conflicted feelings about imperialism reflected the country's own. Under its popular Republican commander-in-chief, the United States was undergoing an uneasy transition from a simple agrarian society to an industrial powerhouse spreading its influence overseas by force of arms. Czolgosz was on the losing end of the economic changes taking place—a first-generation Polish immigrant and factory worker sickened by a government that seemed focused solely on making the rich richer. With a deft narrative hand, journalist Scott Miller chronicles how these two men, each pursuing what he considered the right and honorable path, collided in violence at the 1901 Pan-American Exposition in Buffalo, New York. Along the way, readers meet a veritable who's who of turn-of-the-century America: John Hay, McKinley's visionary secretary of state, whose diplomatic efforts paved the way for a half century of Western exploitation of China; Emma Goldman, the radical anarchist whose incendiary rhetoric inspired Czolgosz to dare the unthinkable; and Theodore Roosevelt, the vainglorious vice president whose 1898 charge up San Juan Hill in Cuba is but one of many thrilling military adventures recounted here. Rich with relevance to our own era, *The President and the Assassin* holds a mirror up to a fascinating period of upheaval when the titans of industry grew fat, speculators sought fortune abroad, and desperate souls turned to terrorism in a vain attempt to thwart the juggernaut of change. Praise for *The President and the Assassin* “ [A] panoramic tour de force . . . Miller has a good eye, trained by years of journalism, for telling details and enriching anecdotes. ” —The Washington Independent Review of Books “ Even without the intrinsic draw of the 1901 presidential assassination that shapes its pages, Scott Miller's *The President and the Assassin* [is] absorbing reading. . . . What makes the book compelling is [that] so many circumstances and events of the earlier time have parallels in our own. ” —The Oregonian “ A marvelous work of history, wonderfully written. ” —Fareed Zakaria, author of *The Post-American World* “ A real triumph. ” —BookPage “ Fast-moving and richly detailed. ” —The Buffalo News “ [A] compelling read. ” —The Boston Globe One of Newsweek's 10 Must-Read Summer Books

A cautionary history of globalization by the author of *Murdering McKinley* identifies what the author believes to be the negative influence of globalization on America, citing the period between the Civil War and the Great Depression as a reminder of the consequences of similar capital and labor circumstances. Reprint.

On September 6, 1901, President William McKinley held a public reception at the Pan-American Exposition in Buffalo, New York. In the receiving line, holding a gun concealed by a handkerchief, was Leon Czolgosz, a young man with anarchist leanings. When he reached McKinley, Czolgosz fired two shots, one of which would prove fatal. The backdrop of the assassination was among the largest of many world's fairs held in the late 19th and early 20th centuries. The Exposition celebrated American progress, highlighting the new technology electricity. Over 100,000 light bulbs outlined the Exposition's building—on display inside were the latest inventions utilizing the new power source. This new treatment of the McKinley assassination is the first to focus on the compelling story of the Exposition: its labor and construction challenges; the garish Midway; the fight for inclusion of an accurate African-American display to offset racist elements of the Midway; and the impressive exhibit halls.

Read PDF Murdering Mckinley The Making Of Theodore Roosevelt's America

New York Times bestselling author of *The Word Shipmates* and contributor to NPR's "This American Life" Sarah Vowell embarks on a road trip to sites of political violence, from Washington DC to Alaska, to better understand our nation's ever-evolving political system and history.

The Great Depression forced the United States to adopt policies at odds with its political traditions. This title looks at the background to the Depression, its social impact, and at the various governmental attempts to deal with the crisis.

Jacob Abrams et al. v. United States is the landmark Supreme Court case in the definition of free speech. Although the 1918 conviction of four Russian Jewish anarchists for distributing leaflets protesting America's intervention in the Russian revolution was upheld, Justice Oliver Wendell Holmes's dissenting opinion (with Justice Louis Brandeis) concerning "clear and present danger" has proved the touchstone of almost all subsequent First Amendment theory and litigation. In *Fighting Faiths*, Richard Polenberg explores the causes and characters of this dramatic episode in American history. He traces the Jewish immigrant experience, the lives of the convicted anarchists before and after the trials, the careers of the major players in the court cases—men such as Holmes, defense attorney Harry Weinberger, Southern Judge Henry DeLamar Clayton, Jr., and the young J. Edgar Hoover—and the effects of this important case on present-day First Amendment rights.
