~~National Geographic Level 3 Readers: Rocks and Minerals ...~~

There are three basic types of rock: igneous, sedimentary, and metamorphic. Extremely common in the Earth's crust, igneous rocks are volcanic and form from molten material. They include not only...

~~Rocks Information and Facts | National Geographic~~

It is a very elementary introduction to rocks and minerals, but a good overview with the important facts and features explained. I did not give it five stars because I think that for the price I paid, it could have been somewhat larger, with even better quality photos-- that "National Geographic quality" consumers have come to expect.
