Open Innovation is not new - it has been around for around 50 years. Many companies used OI to give themselves and edge. it was not given a name until the 21st century when Chesbrough saw it, being used, described it, gave it the name Open Innovaton and cashed in with fancy words such as "The New Imperative For Creating & Profiting From Technology".

firms must reach beyond typical firm boundaries and internal R&D routines in order to innovate and succeed competitively.

Open innovation: The new imperative for creating and ...

The open innovation model that Chesbrough describes shows the necessity of letting ideas both flow out of the corporation in order to find better sites for their monetization, and flow into the corporation as new offerings and new business models. Finding the right balance and mechanisms for this situation to take place is critical.

Open Innovation: Learning from Alliance Research ...

Chesbrough, who coined the term "Open Innovation" describes in his book "Open Innovation: The New Imperative for Creating and Profiting from Technology" (2003) how companies have shifted from so-called closed innovation processes towards a more open way of innovating. Traditionally, new business development processes and the marketing of new products took place within the firm boundaries (Figure 1).
