Oracle Financials
Cloud: Payables
Essentials These
questions are
similar to the ones
asked in the actual
Test. How should I

know? I know,
because although I
have been working
as a Oracle
Financials/Cloud
Consultant for many
years, I have
myself recently
certified with the
latest version of the
Certification test.
Before you start
here are some Key
features of the

Online Library

Oracle

Certification Exam.

This certification exam verifies that the candidate has the knowledge required in the area of Oracle Financials Cloud: Payables Essentials. This certificate builds on basic consultant skills and experience that is then refined by

Online Library

Oracle

Practical experience during several projects.

Candidates must also demonstrate understanding of Implementation Projects, Configuration Packages, Invoice Validation, Payments, Expenses, Reporting and

Online Library Oracle

Withholding Tax,
among others. The
exam is Computer
based and you have
120 minutes to
answer 73
Questions. The
Questions are
(mostly) multiple
choice type and
there is NO penalty
for an incorrect
answer. Some of
the Questions have

Online Library

Oracle

more than one correct answer. You must get ALL the options correct for you to be awarded points. For questions with a single answer, the answers will have a button next to them. You will be able to select only one button. For questions with

Online Library

Oracle

Multiple answers, the answers will have a 'tick box' next to them. This allows you to select multiple answers. You are not allowed to use any reference materials during the certification test (no access to online documentation or to any Oracle system).

Online Library

Oracle

Clearing the

Certification will not automatically lead you to a job.

However a

Certification with some project experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some
