The Common Core State Standards (CCSS) provide a consistent, clear understanding of what students are expected to learn. Aligning each lesson in these six Common Core titles to the CCSS ensures that students are being taught and assessed on what they are expected to learn and know. The alignment helps educators think critically about their curriculum, instruction, and assessments as they work to ensure that their students meet the rigorous new standards. Beginning with foundational skills, the activities teach students what they need to learn. The alignments offer a progressive development of reading comprehension skills so that students advancing through the levels are able to gain more from whatever they read. Each title includes a table of contents, a CCSS alignment chart, 130 reproducible lessons individually aligned to the CCSS (each lesson contains a discrete alignment at the bottom of the page), a scope and sequence chart, and an answer key.

Lev is just like any other young, urban sub-professional who sees the world through inch-thick goggles of self-consciousness. Armed only with insecurity, doubt, and a seemingly inadvisable tenacity, Lev trudges through his days furiously analyzing himself and the world around him, desperately trying to figure out where he fits in. If you have ever felt like a perpetual square peg in a world of round holes, you have found a kindred spirit.
