Questions that drive interest, applications that illustrate concepts, and the tools to test and solidify comprehension. Students come into their first Economics course thinking they will gain a better understanding of the economy around them. Unfortunately, they often leave with many unanswered questions. To ensure students actively internalize economics, O'Sullivan/Sheffrin/Perez use chapter-opening questions to spark interest on important economic concepts, applications that vividly illustrate those concepts, and chapter-ending tools that test and solidify understanding.

Think like an economist! Economics touches almost every aspect of life, from climate change to terrorism, taxes to house prices, wages, to how much time to spend studying! Thinking like an economist will enable you to evaluate economic policies, understand human behaviour, and make more informed decisions. This comprehensive revision retains the hallmarks of previous editions, with a thorough and detailed presentation of the principles of economics and on the development of your critical thinking skills. With the addition of new features, such as At Issue and Economics in the News, this new edition uses real-world examples and applications to incorporate the latest developments in the Eurozone and UK policy. The leading economists in the news today started out like you, as students taking a course in the principles of economics. Like them, you can learn to think like an economist, and this book will show you how. New to this edition: *New feature* End-of-chapter worked problem supports learning by doing and offers an active review of the chapter *New feature* Each chapter starts with a real problem or question which is then developed through the Economics in the News section and additional end-of-chapter questions, supporting critical thinking development *Reimagined feature* All Economics in the News sections have been updated and emphasise solid coverage of real news *Updated coverage* EU membership, healthcare, externalities, immigration, financial markets, bank regulation, the exchange rate, cycles, inflation, and deflation Michael Parkin is Professor Emeritus of the University of Western Ontario. An intuitive and grounded approach to economics Get students to think like an Economist using the latest policy and data while incorporating global issues. Economics, Twelfth Edition builds on the foundation of the previous edition and retains a thorough and careful presentation of the principles of economics. Economics emphasizes real-world applications, the development of critical thinking skills, diagrams renowned for pedagogy and clarity, and path-breaking technology. Each chapter begins with one of today's key issues, and additional issues appear throughout the chapter to show the real-world applications of the theory being discussed. When the chapter concludes, students "read between the lines" to think critically about a news article relating to the issue, demonstrating how thinking like an economist can bring a clearer perspective to and deeper understanding of today's events. Students will begin to think about issues the way real economists do and learn how to explore difficult policy problems to make more informed decisions in their own economic lives. Also available with MyEconLab MyEconLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a

personalized study plan that helps them better absorb course material and understand difficult concepts.
