Published at a time of unprecedented growth of interest in translation, the Dictionary of Translation Studies aims to present the insights of a number of different approaches to translation in an unbiased, non-partisan way. With more than 300 articles, this essential volume provides the reader with a snapshot of a rapidly developing discipline, based on work produced in several languages. With a clear, easy-to-follow layout, the Dictionary provides a comprehensive and highly accessible survey of key terms and concepts (such as Abusive Translation, Equivalence, Informationsangebot, Minimax Principle, Texteme and Thick Translation), types of activity (Autotranslation, Dubbing, Signed Language Interpreting), and schools and approaches (Leipzig School, Manipulation School, Nitra School). Each term is presented within the context in which it first occurred and is given a definition which is both clear and informative. Major entries include a discussion of relevant viewpoints as well as comments on how the usage and application of the term have developed subsequent to its coining. In addition, all entries provide suggestions for further reading, and there is an extensive bibliography included at the end. This is an indispensable tool for anyone studying or teaching translation at university level.

The Delmonico Cook Book is the work of Alessandro Fillipini, who was, for 25 years, chef at the iconic New York restaurant, Delmonico's. Opened in 1837, Delmonico's founded "fine dining" in America. Considered the height of luxury and providing the best of wine, food, and service, Delmonico's set the standard for restaurants in the United States. This book contains menus, information on purchasing and using seasonal ingredients, instructions on how to set and serve a table, as well as recipes for such dishes as Lobster Newburg (invented at Delmonico's), Chocolate Souffle, and Risotto a la Milanaise, allowing home cooks to bring some of the style and taste of Delmonico's into their own homes."

Tracing the development of the Japanese cinema from 1896 (when the first Kinetoscope was imported) through the golden ages of film in Japan up to today, this work reveals the once flourishing film industry and the continuing unique art of the Japanese film. Now back in print with updated sections, major revaluations, a comprehensive international bibliography, and an exceptional collection of 168 stills ranging over eight decades, this book remains the unchallenged reference for all who seek a broad understanding of the aesthetic, historical, and economic elements of motion pictures from Japan.

Maria Gentile's 1919 cookbook is a practical guide for creating economical, nourishing, and delicious Italian meals.

"The Songs of a Sentimental Bloke" by C. J. Dennis. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten?or yet undiscovered gems?of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

Philip Massinger's 1632 play reworks Shakespeare's Measure for Measure as a waspish city comedy intended to attack the vices of hypocrisy, greed, self-indulgence and social pretension. Wealthy merchant Sir John Frugal takes pity on his penniless brother Luke and invites him to live under his roof with John's own haughty wife and two foolishly conceited daughters. As Luke plots to steal from his brother, and his daughters arrogantly spurn worthy suitors, John plans to teach them all a lesson. Retiring to a monastic life, he leaves his brother Luke in charge of the household, before returning in disguise to watch havoc unfold... This rarely produced but surprisingly timely play was revived by the Royal Shakespeare Company as part of its fiftieth birthday season in 2011. 'a riot' The Times 'infinitely rewarding... a real treat' Independent

This volume undertakes a detailed analysis of the latest generation of learners' dictionaries of English. It assembles the papers delivered at the eponymous symposium held at the University of Erlangen-Nürnberg in April 1997. There are a number of reasons why these dictionaries are of special lexicographic interest: 1. the type of learners' dictionary associated notably with the name of Hornby can look back on a long tradition in British lexicography; 2. competition between various publishers since the late 70s has given crucial impetus to the development of these dictionaries; 3. these new dictionaries are decisively marked by the evaluation of large-scale computer corpora. Central to the volume is the in-depth comparison of four dictionaries published in 1995: OALD5, LDOCE3, COBUILD2, CIDE. The aim is to exemplify specific differences of approach in the four dictionaries from a wide range of viewpoints (definitions, information on valency and collocations, policy on usage examples, political correctness, etc.). A number of articles also enlarge on the history of learners' dictionaries of English, the significance of corpus linguistics for lexicography, and perspectives for the future, notably in connection with the electronic media.

"This edition, newly collated and edited, features complete explanations of the play's often bawdy exchanges and the complex stage action of the gulling and secondary plots. It will be invaluable for advanced students of the Middleton canon as well as all those interested in early modern London and its vibrant theatrical culture, especially the tradition of boy choristers as professional actors."--BOOK JACKET.

This volume draws together highly detailed studies of how dictionaries are used by different types of users, from school students to senior professors, working with a foreign language with the help of different types of dictionaries, from monolingual dictionaries for native speakers of the foreign language, through bilingual dictionaries, to monolingual dictionaries in the language of the user. The tasks being carried out include L2-L1 translation, L1-L2 translation, L2 comprehension, self-expression in L2, and various project-specific linguistic exercises. The authors have tried to include enough detail to allow readers to replicate the tests, and adapt them to serve their own interests.

In der Reihe Lexicographica. Series Maior erscheinen schwerpunktmäßig Monographien und Sammelbände zur Lexikographie und Metalexikographie. Darüber hinaus werden Arbeiten aus dem weiteren Bereich der Lexikologie aufgenommen, sofern sie Ansätze bieten, die einen Beitrag zum Ausbau der theoretischen, methodischen und empirischen Grundlagen von Lexikographie und Metalexikographie leisten. In den seit 1984 erschienenen knapp 150 Bänden spiegeln sich anschaulich die Schwerpunkte und Entwicklungstendenzen der einschlägigen Forschung. Das Spektrum der behandelten Themen reicht von Problemen der Mikro- und Makrostruktur über typologische und wissenschaftsgeschichtliche Aspekte bis hin zur anwendungsorientierten lexikographischen Dokumentation.
