and/or competencies, usually in a real-world context. It is often a key component of high-quality student-centered learning. Tom Vander Ark stated:

Performance Assessment in Different Learning Environments
In general, a performance-based assessment measures students' ability to apply the skills and knowledge learned from a unit or units of study. Typically, the task challenges students to use their higher-order thinking skills to create a product or complete a process (Chun, 2010).

What Is Performance Assessment? - Education Week

The culminating activity or product for performance-based learning is one that lets a student demonstrate evidence of understanding through a transfer of skills. A performance-based assessment is open-ended and without a single, correct answer, and it should demonstrate authentic learning, such as the creation of a newspaper or class debate. The benefit of performance-based assessments is that students who are more actively involved in the learning
