Plant Breeding Matters Bspb

Plant breeding is the business and science of crop improvement. It is an innovation-based sector, focused on developing plants better adapted to human needs. The demand for new varieties of agricultural and horticultural crops, adapted to our unique growing conditions, is never ending, driven by the challenges of new pest and disease pressures, weather patterns and changing market requirements.

Plant Breeding Matters

Plant Breeding Matters. Lord Gardiner applauds the urgent and essential work of plant breeders. That was the strong message from Lord Gardiner, Parliamentary Under Secretary of State at Defra, speaking at BSPB 's Annual General Meeting at the Royal Society. Paying tribute to the work of plant breeders, Lord Gardiner said: ' The work that you and your predecessors have done over hundreds of years is to transform our ability to produce food and improve the health and prosperity of so many ...

BSPB Plant Breeding Matters

Plant Breeding Matters. A joint initiative between BSPB and the major UK farming unions (NFU, NFUS and UFU), the FAIR PLAY campaign was established in 2005 to address concerns that evasion of farm-saved seed payments was draining vital income away from investment in UK-based plant breeding. The central objective of the FAIR PLAY campaign is to create a level playing-field in which all farmers contribute fairly for the benefits of using farm-saved seed, so safeguarding future investment in ...
