The plant biology program prepares students for careers or further study in areas related to food and plant production, turfgrass, plant pathology and pest management, plant breeding, natural products, and bioenergy. The curriculum offers three options: the Horticulture and Turf Industry option, for students intending to pursue careers in the plant business industry; the General Plant Biology Option, for students intending to pursue careers in research laboratories or graduate study; and the ...

Plant Biology (Plant Science) Major Rutgers University

The major vegetative parts of plants are stems. A stem is the central axis that supports the leaves, connects them with the roots, and transports water and other materials between the leaves and roots. Stems vary widely in appearance based on the species of plant. Stems may be vertical or horizontal and modified for climbing and to store water and food.
