A grisly racial murder in what news commentators insist on calling "the heartland." A feeding frenzy of mass media and seamy politics. An illicit love affair with the potential to wreck lives. In his grandly inventive last novel, John Gregory Dunne orchestrated these elements into a symphony of American violence, chicanery, and sadness. In the aftermath of Edgar Parlane's killing, the small prairie town of Regent becomes a destination for everyone from a sociopathic teenaged supermodel to an enigmatic attorney with secret familial links to the worlds of Hollywood and organized crime. Out of their manifold convergences, their jockeying for power, publicity or love, Nothing Lost creates a drama of magnificent scope and acidity.

From a three-time Newbery Honor author: Harry Houdini Marco had it hard enough as a normal clumsy twelve-year-old—but growing wings made it even worse. Except for his unusual name, Harry Houdini Marco is unremarkable in every way. While his namesake was the greatest illusionist of all time, Harry can't even catch a ball. He is on the verge of a long, boring summer—and he is dreading every moment of it. Then he meets a mysterious traveling salesman named Mr. Mazzeck. But Mr. Mazzeck is more than a traveling salesman, he's a wizard—at least, he claims to be. Before he leaves town, Mr. Mazzeck gives Harry a bottle of magical oil, saying that the potion will give him wings. And to Harry's amazement, the oil works: He gets wings! Now he just has to figure out how to use them. This ebook features an extended biography of Zilpha Keatley Snyder.

Then, finally his lost voice ripped through the safe family life he had built over 40 years. With parallels to Joseph Conrad's *Heart of Darkness*, this is stylishly written and politically explosive. The haunting true story of a young man's decent into a hell designed to satisfy the powerful. A world that destroyed the lives of everyone involved.

How did a disheveled, intellectually combative gay Jew with a thick accent become one of the most effective (and funniest) politicians of our time? Growing up in Bayonne, New Jersey, the fourteen-year-old Barney Frank made two vital discoveries about himself: he was attracted to government, and to men. He resolved to make a career out of the first attraction and to keep the second a secret. Now, fifty years later, his sexual orientation is widely accepted, while his belief in government is embattled. *Frank: A Life in Politics from the Great Society to Same-Sex Marriage* is one man's account of the country's transformation—and the tale of a truly momentous career. Many Americans recall Frank's lacerating wit, whether it was directed at the Clinton impeachment ("What did the president touch, and when did he touch it?") or the pro-life movement (some people believe "life begins at conception and ends at birth"). But the contours of his private and public lives are less well-known. For more than four decades, he was at the center of the struggle for personal freedom and economic fairness. From the battle over AIDS funding in the 1980s to the debates over "big government" during the Clinton years to the 2008 financial crisis, the congressman from Massachusetts played a key role. In 2010, he coauthored the most far-reaching and controversial Wall Street reform bill since the era of the Great Depression, and helped bring about the repeal of Don't Ask, Don't Tell. In this feisty and often moving memoir, Frank candidly discusses the satisfactions, fears, and grudges that come with elected office. He recalls the emotional toll of living in the closet and how his public crusade against homophobia conflicted with his private accommodation of it. He discusses his painful quarrels with allies; his friendships with public figures, from Tip O'Neill to Sonny Bono; and how he found love with his husband, Jim Ready, becoming the first sitting member of Congress to enter a same-sex marriage. He also demonstrates how he used his rhetorical skills to expose his opponents' hypocrisies and delusions. Through it all, he expertly analyzes the gifts a successful politician must bring to the job, and how even Congress can be made to work. Frank is the story of an extraordinary political life, an original argument for how to rebuild trust in government, and a guide to how political change really happens—composed by a master of the art.

fourteen-year-old June Elbus, and that's her uncle, the renowned painter Finn Weiss. Shy at school and distant from her older sister, June can only be herself in Finn's company; he is her godfather, confidant, and best friend. So when he dies, far too young, of a mysterious illness her mother can barely speak about, June's world is turned upside down. But Finn's death brings a surprise acquaintance into June's life—someone who will help her to heal, and to question what she thinks she knows about Finn, her family, and even her own heart. At Finn's funeral, June notices a strange man lingering just beyond the crowd. A few days later, she receives a package in the mail. Inside is a beautiful teapot she recognizes from Finn's apartment, and a note from Toby, the stranger, asking for an opportunity to meet. As the two begin to spend time together, June realizes she's not the only one who misses Finn, and if she can bring herself to trust this unexpected friend, he just might be the one she needs the most.
