on the surface. Cover with 8-10cm of compost and water well. When the shoots have grown to 8cm, cover with another 10cm of compost.

~~How to Grow Potatoes in a Pot - BBC Gardeners' World Magazine~~

Potato lovers can (and should) grow some of each group of potatoes. First earlies are a good choice for those with limited space as they can be planted closer together. They will also be out of the ground before potato blight threatens later on in the summer, and freeing up room for a second crop in the same season.
