Pulp fiction can be characterized as "fast-paced, plot-oriented storytelling of a linear nature with clearly defined, larger than life protagonists and antagonists, creative descriptions, clever use of turns of phrase and other aspects of writing that add to the intensity and pacing of the story."

Pulp Books - Goodreads

Most papers do not use adhesives but rely on hydrogen bonding between fibers. Paper is then formed by running a dilute slurry of pulp through a screen, and then most of the water is allowed to drain out by gravity. Additional water is then pressed from the sheet. The last water is removed by evaporation.

Pulp Paper Books - old.dawnclinic.org

Pulp magazines (often referred to as "the pulps") were inexpensive fiction magazines that were published from 1896 to the late 1950s. The term pulp derives from the cheap wood pulp paper on which the magazines were printed. In contrast, magazines printed on higher-quality paper were called "glossies" or "slicks". The typical pulp magazine had 128 pages; it was 7 inches (18 cm) wide by 10 inches ...
