~~Reflection for Nursing Life: Principles, Process and Practice~~

Reflective Planning Practice: Theory, Cases, and Methods uses structured, first-person reflection to reveal the artistry of planning practice. The value of professional reflection is widely recognized, but there is a difference between acknowledging it and doing it. This book takes up that challenge, providing planners ' reflections on past practice as well as prompts for reflecting in the midst of planning episodes.

Over the past decades, reflection has taken centre stage in nursing education but it is easy to get stuck in a superficial cycle of storytelling and self-examination, without getting any further insights into your own practice and abilities. Reflection for Nursing Life starts with a basic introduction to reflective practice and moves through to look at more critical perspectives, with guidance for reflecting on the complex realities of practice.

~~Reflection for Nursing Life: Principles, Process and ...~~

This book presents the work of practitioners, educators, academics and researchers who see this as problematic and are moving towards a more critical approach to reflective practice. With an overview from the editors and fourteen chapters considering new conceptualisations, professional perspectives and new practices, Beyond Reflective Practice examines what new forms of professional reflective practice are emerging.
