Language use, linguists refer to the context-specific variety of language as a register.

The three aspects of the context are known as field, tenor and mode.

Tenor (linguistics) -

Wikipedia

Field, mode and tenor of discourse describe the context of a situation in which language is used.

Bookmark File

PDF Register

Register, however, is defined as a functional variety of language according to the use in particular settings.

Hence, Halliday connected three distinct functions of language with the three dimensions of a situation mentioned above.
