Alexis Soyer (1810–1858) was a working-class Frenchman from an unremarkable town north-west of Paris, but his exceptional cooking skills and ebullient personality turned him into Britain's first true celebrity chef. He was the first to publish a succession of best-selling cookbooks – one selling more than a quarter of a million copies, an extraordinary figure for the mid-nineteenth century. He was also the first to produce branded merchandise, including a remarkably ingenious stove that fitted in the pocket and bottled sauces decorated with his recognisable portrait. Ahead of his time, he nurtured a flamboyant public profile through a combination of brilliant self-publicity and shameless press manipulation. But his life's purpose both came into focus and found its dramatic climax when he renounced his sybaritic lifestyle and elected to travel, for no pay and in the face of real danger, across Europe first to Scutari and later to Balaclava, where thousands of British troops had died of disease and malnutrition during the first long, bitter winter of the Crimean war. One of the first to understand fully the rudiments of good nutrition and mass catering, Soyer had already introduced new principles of large-scale cookery to Ireland during the potato famine of 1847, and he extend his expertise to the British army with spectacular results. Long overlooked by historians, Ruth Cowen vividly recounts the life of a unique personality with a scholarly slice of Victorian history.

The editors of Relish magazine celebrate the nation's people, places, and food traditions in a cookbook that features such dishes as Thai beef salad, winter vegetable lasagna, honey cheesecake, and gluten-free chocolate chip cookies.

Fascinating biography of a 19th-century celebrity chef Rarely has a man defined the spirit of an age as well as Alexis Soyer: celebrity chef, best-selling author, entrepreneur, inventor, philanthropist and Crimean war hero. Soyer built the world famous kitchens of London's Reform Club – which he filled with such ingenious inventions as the gas stove and steam lifts. He set up the most innovative culinary theme park ever seen in the capital, and devised the sauces and relishes that would make household names of Mr Crosse and Mr Blackwell. In the 1840s he set up revolutionary soup kitchens during the Irish potato famine, and in the following decade risked his life by travelling to the Russian peninsula to reform army catering for the troops – saving thousands of soldiers from the effects of malnutrition. Alexis Soyer was one of the most famous names of the early Victorian age, and his legacy lives on through the radical army reforms his work set in train. He was also ; in a similar spirit of the age – a secret womaniser, near bankrupt and alcoholic. Yet this brilliant man, who during his lifetime was more famous than the men he regularly brushed shoulders with – men such as Thackeray, Disraeli, Dickens and Palmerston – dropped completely from public view after his untimely death. His friend Florence Nightingale, never one to praise lightly, wrote that his passing was 'a great disaster' for the nation. Yet despite making several fortunes he died virtually penniless, his personal papers were destroyed, his funeral was a hushed-up affair and today his grave lies neglected and rotting in Kensal Green cemetery. This is the first full length, fully researched biography of Alexis Soyer, which explores the life, career and legacy of one of the most enigmatic and extraordinary figures of the Victorian age.
