How to Derrestrict a 50cc Scooter. Derrestricting your 50cc scooter allows the scooter to accelerate quicker and travel at a greater top speed; this makes for a safer and easier ride on larger roads. Most 50cc scooters are restricted by the placement of a spacing washer in the drivetrain system, also known as the variator system. Removing this washer allows the scooter's variator system to operate at its full potential, increasing the scooter's acceleration and top speed.

Need some advice. I have two daughters (13 and 11) that want scooters for Christmas. We were going to get them 750W electric scooters but for not much more we can get them 50cc gas scooters (Green Earth Renegade 50 for \$590). I realize that these are not "top of line" but I don't want to buy junk either.
