genuine large size lacquer paint chips. Sections divided into types; fighters, bombers, transports, maritime, trainers, etc.. Correctly referred to as the bible of accurate German aircraft colors.

This book shows the original German camouflage of vehicles used by the Deutsche Afrika Korps, with color variants throughout the war. We look at German Army vehicle colours for the African campaign, including the European Dark Gray (RAL 7021) in which they arrived to Libya. This continues through to the initial camouflage colours, Yellow-Brown RAL 8000 with Green-Gray spots RAL 7008 (in 1941), and the new Yellow-Brown RAL 8020 and Sand Gray RAL 7027, used from 1942. We also include a selection of Italian vehicles, often forgotten, which fought alongside the Germans against the Allies from 1941 to 1943. This is supplemented by the addition of allied vehicles serving with the Axis troops, with some curious American halftracks on a doublepage spread, with distinctive German markings, from 1943. Over 170 profiles cover schemes from the most common camouflage to the most original and unusual vehicles used by the DAK and Regio Esercito, including major artillery pieces used in Africa, highlighting above all the powerful 88 mm Flak 18/36/37. Through the 108 pages of this book, you will find inspiration for your next African modelling project; projects that you can enhance further with the AK 550 Africa

Korps Colors Acrylic Set, and the AK 068 DAK Weathering Set.

Provides instructions for creating a variety of two- and three-dimensional beadwork jewelry pieces.

L T C Rolt was one of a small group of amateur railwaymen who made their dream of running their own railway come true. Established by Act of Parliament in 1865 and unaffected by mergers and nationalisation, the Talyllyn Railway has been serving a remote valley in the Merioneth mountains ever since. This book presents this railway adventure.
