It is important to provide ample shelter or places where the animals can hide, sleep, and avoid potential problems with aggression from other tankmates in the confined space of an aquarium. Sea Salt Mix/Saltwater & Hydrometer Sea salts are what make an aquarium a saltwater or marine aquarium. Also referred to as a salinity tester, this item measures the specific gravity or salt content of the

Checklist for Starting a Saltwater Aquarium at Home
Fish supply stores offer two ways to get saltwater for your aquarium. One is by pre-made saltwater or getting a synthetic sea salt mix that you blend into the water. If you plan to mix your own saltwater, make sure you purchase the pre-made saltwater solution that you add to water that you supply. Get a dry synthetic saltwater mix.

Aquarium lids are one of the most important and
overlooked aquarium accessories. A snug-fitting lid
will keep your fish in the tank where they belong and
cut down on saltwater splashing from your tank. But
not all lids are created equal. Acrylic lids are the go-to
choice for the modern reef aquarium hobbyists
replacing older style glass lids.

By Gregory Skomal. Keeping a saltwater aquarium means maintaining a fairly strict maintenance schedule to keep the life inside healthy. The water in saltwater aquariums requires regular testing for a variety of minerals and chemical balances. Figuring out the right feeding schedule and amount for your fish is a task that needs attention when you first stock your aquarium and when the population changes.
