This story is about how Sam the dinosaur is different from his friends, and how his uniquenesses make him special.

A hell-bound fantasy starring demons, damsels, and an unlikely hero. "A fast-paced, page-turning adventure built out of a strikingly original mythology. Eerie, surprising, and a lot of fun." — Elan Mastai, author of All Our Wrong Todays Sixteen-year-old Sam Sullinger lives in the shadow of adolescence. He's lost among his overachieving siblings, constantly knocked down by his harsh father, and bullied daily. His only solace is his best friend and crush, Harper. In a grand plan designed to help him confess his love to Harper, Sam accidentally sets off a series of events that lead to her being kidnapped and taken to Hell. Racked with guilt, Sam makes a bold decision for the first time in his life: he's going to rescue his only friend. Sam is thrust into a vivid world fraught with demons, vicious beasts, and a falling city. And every leg of his journey reminds him that he isn't some brave knight on a quest — he's an insecure teenager yearning to make his mark on at least one world.

Dean is given a new puppy, Sam—an example of faith in God.

This story is about how Sam the dinosaur is different from his friends, and how his uniquenesses make him special. (Set of 6 with Teacher's Guide and Comprehension Question Card)

Appropriate for children, families, and professionals, this wonderful book brings to life the story of Sam, whose over-sensitivity creates chaos and frustration in his life. Sam's various sensory sensitivities adversely affect Sam's experiences, both at home and in the classroom. He walks readers through his typical day of sensory blunders (which many kids and families may find all too familiar!). Finally, at the suggestion of Sam's teacher, his parents take Sam to see an occupational therapist. Sam describes the process in a non-threatening, child's perspective that is sure to sooth young readers who may be facing the same challenges. With occupational therapy, a new "sensory diet," and the love and support of his family, Sam concludes: "Treating sensory challenges Takes some patience, and love, too. And now I LIKE doing lots of things I used to hate to do!"

Could Sam the zookeeper have forgotten to feed Elephant, the other zoo animals wonder. "Like Sam, Rice never, never forgets her audience."--School Library Journal.

In 1963, renowned Franco-American author Raymond Federman - then a young academic, just fresh from defending his PhD - met Samuel Beckett in Paris. The meeting was to change his life. 'Sam' became both a great friend and a great source of inspiration to Federman throughout his writing career. Intensely moving and intensely funny by turns, this unique book is both a memoir of a friendship, and a typically Federman-esque tribute to Beckett and his work. The Sam Book brings together memories, anecdotes, extracts from articles and talks, and other pieces of writing that derive their inspiration directly from Beckett's work.

On a trip to the beach, Sam and his stuffed bunny, Jump, meet a new friend and spend the day playing together, but when Sam gets home, he realizes Jump is still at the beach and worries all through the night that his toy will be lost forever.
