SAP New GL Simple Finance We will cover the FI configuration from scratch and not copying configuration from an existing company code. Click on. and update the following fields:

SAP Simple Finance configuration  
Having configured the FI- GL component, we now need to configure the second important module Accounts Receivable (AR) and Accounts Payable (AP) of SAP. The AR and AP acts as a sub ledger to FI- GL for managing the balances of Customers and Vendors. The AR and AP components store all the information and balance details for each customer and vendor.
