Section 23.1. 1. What types of evidence indicate that cancer arises from genetic changes? Solution: Higher incidences of many types of cancer are associated with exposure to radiation and other environmental mutagens. In addition, the occurrence of some types of cancer runs in families, and a few cancers have been linked to chromosomal abnormalities.

24 1 Strip Method for Slabs  
24.1 INTRODUCTION In Section 23.2, the upper and lower bound theorems of the theory of plasticity were presented, and it was pointed out that the yield line method of slab analysis was an upper bound approach to determining the flexural strength of slabs. An upper bound analysis, if in error, will be so on the unsafe side. The actual carrying capacity will be less ...
