While the Yucatán Peninsula of Mexico may conjure up images of vacation getaways and cocktails by the sea, these easy stereotypes hide a story filled with sweat and toil. The story of sugarcane and rum production in the Caribbean has been told many times. But few know the bittersweet story of sugar and rum in the jungles of the Yucatán Peninsula during the nineteenth century. This is much more than a history of coveted commodities. The unique story that unfolds in John R. Gust and Jennifer P. Mathews's new history Sugarcane and Rum is told through the lens of Maya laborers who worked under brutal conditions on small haciendas to harvest sugarcane and produce rum. Gust and Mathews weave together ethnographic interviews and historical archives with archaeological evidence to bring the daily lives of Maya workers into focus. They lived in a cycle of debt, forced to buy all of their supplies from the company store and take loans from the hacienda owners. And yet they had a certain autonomy because the owners were so dependent on their labor at harvest time. We also see how the rise of cantinas and distilled alcohol in the nineteenth century affected traditional Maya culture and that the economies of Cancún and the Mérida area are predicated on the rum-influenced local social systems of the past. Sugarcane and Rum brings this bittersweet story to the present and explains how rum continues to impact the Yucatán and the people who have lived there for millennia.

The modern successor to Sweetness and Power, James Walvin's Sugar is a rich and engaging work on a topic that continues to change our world. How did a simple commodity, once the prized monopoly of kings and princes, become an essential ingredient in the lives of millions, before mutating yet again into the cause of a global health epidemic? Prior to 1600, sugar was a costly luxury, the domain of the rich. But with the rise of the sugar colonies in the New World over the following century, sugar became cheap, ubiquitous and an everyday necessity. Less than fifty years ago, few people suggested that sugar posed a global health problem. And yet today, sugar is regularly denounced as a dangerous addiction, on a par with tobacco. While sugar consumption remains higher than ever—in some countries as high as 100lbs per head per year—some advertisements even proudly proclaim that their product contains no sugar. How did sugar grow from prize to pariah? Acclaimed historian James Walvin looks at the history of our collective sweet tooth, beginning with the sugar grown by enslaved people who had been uprooted and shipped vast distances to undertake the grueling labor on plantations. The combination of sugar and slavery would transform the tastes of the Western world. Masterfully insightful and probing, James Walvin reveals the relationship between society and sweetness over the past two centuries—and how it explains our conflicted relationship with sugar today.

A fascinating persuasive history of how sugar has shaped the world, from European colonies to our modern diets In this eye-opening study, Sidney Mintz shows how Europeans and Americans transformed sugar from a rare foreign luxury to a commonplace necessity of modern life, and how it changed the history of capitalism and industry. He discusses the production and consumption of sugar, and reveals how closely interwoven are sugar's origins as a "slave" crop grown in Europe's tropical colonies with is use first as an extravagant luxury for the aristocracy, then as a staple of the diet of the new industrial proletariat. Finally, he considers how sugar has altered work patterns, eating habits, and our diet in modern times. "Like sugar, Mintz is persuasive, and his detailed history is a real treat." -San Francisco Chronicle

The author of 99 Drams of Whiskey and popular Accidental Hedonist food blogger presents a cultural history of candy that traces how it evolved from a medicine and luxury to today's commercial treats, providing coverage of the industry's darker side while exploring the role of candy in the growth of the Western world.

What does the "tradition of marriage" really look like? In A History of Marriage, Elizabeth Abbott paints an often surprising picture of this most public, yet most intimate, institution. Ritual of romance, or social obligation? Eternal bliss, or cult of domesticity? Abbott reveals a complex tradition that includes same-sex unions, arranged marriages, dowries, self-marriages, and child brides. Marriage—in all its loving, unloving, decadent, and impoverished manifestations—is revealed here through Abbott's infectious curiosity.

Presents a history of the interdependence of sugar, slavery, and colonial settlement in the New World through the story of the author's ancestors, exploring the myriad connections between sugar cultivation and her family's identity, genealogy, and financial stability.

Sweet and Low is the amazing, bittersweet, hilarious story of an American family and its patriarch, a short-order cook named Ben Eisenstadt who, in the years after World War II, invented the sugar packet and Sweet'N Low, converting his Brooklyn cafeteria into a factory and amassing the great fortune that would destroy his family. It is also the story of immigrants to the New World, sugar, saccharine, obesity, and the health and diet craze, played out across countries and generations but also within the life of a single family, as the fortune and the factory passed from generation to generation. The author, Rich Cohen, a grandson (disinherited, and thus set free, along with his mother and siblings), has sought the truth of this rancorous, colorful history, mining thousands of pages of court documents accumulated in the long and sometimes corrupt life of the factor, and conducting interviews with members of his extended family. Along the way, the forty-year family battle over the fortune moves into its titanic phase, with the money and legacy up for grabs. Sweet and Low is the story of this struggle, a strange comic farce of machinations and double dealings, and of an extraordinary family and its fight for the American dream.
