A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country!

Readers around the world have thrilled to Killing Lincoln, Killing Kennedy, and Killing Jesus--riveting works of nonfiction that journey into the heart of the most famous murders in history. Now from Bill O'Reilly, iconic anchor of The O'Reilly Factor, comes the most epic book of all in this multimillion-selling series: Killing Patton. General George S. Patton, Jr. died under mysterious circumstances in the months following the end of World War II. For almost seventy years, there has been suspicion that his death was not an accident--and may very well have been an act of assassination. Killing Patton takes readers inside the final year of the war and recounts the events surrounding Patton's tragic demise, naming names of the many powerful individuals who wanted him silenced.

An examination, evidence, and proof of the REAL conspiracy against General George S. Patton, Jr. The greatest American General in World War II. A startling revelation about who did what and why they did it. A fascinating story.

"BETTER TO FIGHT FOR SOMETHING THAN LIVE FOR NOTHING." -- GENERAL GEORGE S. PATTON It is 75 years since the end of WW II and the strange, mysterious death of General George S. Patton, but as in life, Patton sets off a storm of controversy. SILENCE PATTON: First Victim of the Cold War asks the question: Why was General Patton silenced during his service in World War II? Prevented from receiving needed supplies that would have ended the war nine months earlier, freed the death camps, and prevented Russian invasion of the Eastern Bloc, and Stalin's murderous rampage. Why was he fired as General of the Third Army and relegated to a governorship of post-war Bavaria? Who were his enemies? Was he a threat to Eisenhower, Montgomery, and Bradley? And is it possible as some say that the General's freakish collision with an Army truck, on the day before his departure for US, was not really an accident? Or was Patton not only dismissed by his peers, but the victim of an assassin's bullet at their behest? Was his personal silence necessary? Early in his life, Patton was a markedly insecure man, petrified by the notion of failing to live up to the standards of his pedigree. Patton was haunted by "several sets of ghosts" throughout his lifetime, including his martial ancestors, the great men of history and literature, and figures from his early years, especially relatives. As far as Patton saw it, his chief duty in life was to live up to -- if not surpass -- the military precedent set by his forebears. George Patton was driven by an innate sense of duty, both to his family's great military tradition and to his country. He was fixated on the notion of reaching the status of a military legend, and driven by outdated notions about honor, drawing from the Greek concept of ar ê te and medieval notions of chivalry, both of which had received a heightened level of attention in the 1800s. As a general, Patton measured himself against Alexander, Caesar and Hannibal of antiquity. Combat was, for Patton, the means by which to attain glory and secure his eternal legacy. Patton was simultaneously brilliant and deeply flawed. He lived an exciting, compulsive life, never standing still for a moment, always searching, seeking, probing. He was daring and noble on occasion, like the Greek and Roman military legends he revered. At other times he was petulant and cruel, lacking in the diplomatic grace and tact that defined many of his contemporaries, a real son-of-a-bitch (i.e. "Our Blood His Guts" They were mocking him). Patton was the kind of guy the Allies needed to get the dirty work done on the ground, but also the guy they wanted to get rid of or silence when the fighting was over. This is hardly surprising, given how outspoken Patton was about the conduct of the war -- especially its end and aftermath -- and his willingness to identify the Soviet Union as the next great threat to American democracy and world peace. General George S. Patton was America's antihero of the Second World War. Orlando explores whether a man of such a flawed character could have been right about his claim that because the Allied troops, some within 200 miles of Berlin, or just outside Prague, were held back from capturing the capitals to let Soviet troops move in, the Cold War was inevitable. Patton said it loudly and often enough that he was relieved of command and silenced. Patton had vowed to "take the gas off" after the war and tell the intimate truth and inner workings about controversial decisions and questionable politics that had cost the lives of his men. Was General Patton volatile, bombastic, self-absorbed, reckless? Yes, but he was also politically astute and a brilliant military strategist who delivered badly needed wins. Questions still abound about Patton's rise and fall. SILENCE PATTON seeks to answer them.

General George Patton, a brilliant military strategist who revolutionized the aggressive use of the tank as an attack weapon and the most successful combat commander in US history, had millions of admirers in the summer of 1943. He also had enemies, including a muck-raking newspaper columnist who leaked information about a slapping incident. Soon after, in a stunning announcement by General Dwight Eisenhower, Commanding General, US Expeditionary Forces, Patton was ordered to apologize to the entire Seventh Army Group, with as many of the men as possible assembled in the main square in Messina, Sicily. Immediately afterward, he was 'reassigned' to England without a command: all taking place, incredibly, on the eve of the invasion of Italy. German intelligence believed this was a ruse, certain he was preparing to lead the invasion of Europe. They were partially right. It was a ruse. But the American people, Allies, Army Chief-of-Staff, George Marshall, even President Franklin Roosevelt himself, never knew what really happened. .

One of World War II's most brilliant and controversial generals, George S. Patton (1885-1945) fought in North Africa and Sicily, as commander of the Third Army, spearheaded the Allies' spectacular 1944-1945 sweep through France, Belgium, and Germany. Martin Blumenson is the only historian to enjoy unlimited access to the vast Patton papers. his many books include Masters of the Art of Command (available from Da Capo Press) and Patton: The Man Behind the Legend.

"If you survive your first day, I'll promote you." So promised George Wilson's World War II commanding officer in the hedgerows of Normandy -- and it was to be a promise dramatically fulfilled. From July, 1944, to the closing days of the war, from the first penetration of the Siegfried Line to the Nazis' last desperate charge in the Battle of the Bulge, Wilson fought in the thickest of the action, helping take the small towns of northern France and Belgium building by building. Of all the men and officers who started out in Company F of the 4th Infantry Division with him, Wilson was the only one who finished. In the end, he felt not like a conqueror or a victor, but an exhausted survivor, left with nothing but his life -- and his emotions. If You Survive One of the great first-person accounts of the making of a combat veteran, in the last, most violent months of World War II.
