Corporate taxation refers to taxation of companies (as defined under Income Tax Act, 1961) and is a major source of revenue to the Government. Under Income Tax Act, 1961, a company is liable to pay tax on its income at a flat rate (just as partnership firm) without any basic exemption limit as applicable to an individual or FIUF.

Company Taxation Meaning and Definition

Companies are subject to income tax and tax on capital gains in terms of the Income Tax Act and there is no separate law charging corporation tax. The general rules discussed in Chapters 11 and 12 apply to companies as well as to other persons. This chapter highlights the income tax provisions that are specifically relevant to companies.

Chapter 13: Taxation of Companies and Shareholders

Since the two companies are separate, each pays its own taxes on its own income. The IRS has regulations in place to deter parent and subsidiary companies from moving taxable income around among each other. Starting in 2013, an international subsidiary cannot use American intellectual property without paying the parent company.

What Are Holding Company Tax Implications?

Here are some of the highlights of corporate taxation for domestic companies in India. Domestic companies are subject to a flat rate of 30% as a corporate tax on their earnings. If the company has a turnover of Rs. 1 crore or more, 5% surcharge is levied on the tax paid by the company. 3% education cess is also payable.

Taxation of Companies—Academic

Taxation of Companies and Company Reconstructions covers key aspects of corporate taxation law, showing you exactly how tax provisions apply in practice. Although the text is being continually modernised, the carefully structured style that has long been the hallmark of this book is retained. Each subject is examined from first principles before moving into finer points of detailed explanation.
