Asian Financial Crisis Definition - investopedia.com

The Asian financial crisis was a period of financial crisis that gripped much of East Asia and Southeast Asia beginning in July 1997 and raised fears of a worldwide economic meltdown due to financial contagion.. The crisis started in Thailand (known in Thailand as the Tom Yam Kung crisis; Thai: \u0e40\u0e48\u0e47\u0e49\u0e44\u0e47\u0e49) on 2 July, with the financial collapse of the Thai baht ...

1997 Asian financial crisis - Wikipedia

Toward A Better Class of Financial Crises: Some Lessons from Asia. Drawing lessons from the Asian financial crisis has become a minor industry, partially offsetting the impact of the crisis on developed economies -- at least for economists. It contributes to conference budgets, airline revenues, bar tabs, and the length of academic resumes.

FRB: Speech, Rivlin -- A Better Class of Financial Crises ...

The Asian Financial Crisis of 1997 affected many Asian countries, including South Korea, Thailand, Malaysia, Indonesia, Singapore, and the Philippines. After posting some of the most impressive growth rates in the world at the time, the so-called "tiger economies" saw their stock markets and currencies lose about 70% of their value.

What Was the Asian Financial Crisis?

Lessons learned from the Asian crisis (1999) advocates that analysis of the crisis suggests that international capital movements can heighten the risk of creating financial instability, but due to the presence of a government safety net with ineffective supervision of banking institutions this can encourage capital inflows, which lead to a lending boom and excessive risk-taking on the part of banks.

Lessons Learned from the Asian Financial Crisis 1997 ...

This book analyzes the Asian financial crisis of 1997-1999. In addition to the issues of financial system restructuring, export-led recovery, crony capitalism, and competitiveness in Asian manufacturing, it examines six key Asian economies:China, Indonesia, Japan, Korea, Malaysia, and Thailand.

The Asian Financial Crisis: Lessons for a Resilient Asia ...

The Asian financial crisis, which spread from Thailand to other countries in the region during the second half of 1997, plunged the countries affected into deep recessions that brought rising unemployment, poverty, and social dislocation. The outbreak, spread, and persistence of the crisis also challenged some basic assumptions: the countries most strongly affected were "tiger economies" that had few of the weaknesses usually associated with countries that turn to the IMF for help.
