The Carbon Diaries 2015 (Carbon Diaries, #1) by Saci Lloyd

The Carbon Diaries are based on a fascinating premise - that a switch from twenty-first century lives (cars, mobiles, laptops, foreign holidays, rampant consumerism etc.) to an austere restriction on each individual's carbon footprint takes place on an arbitrary date (1/1/2015) in a drastic attempt to stop global warming and its building consequences.

The Carbon Diaries 2015 Quotes Showing 1-1 of 1 "You never think it's gonna happen to you, but all that pollution and dirty fumes and flights and factories and shit we don't need and suddenly there you are, a stupid girl sitting alone on some steps, waiting to see if your family is ever coming back." Saci Lloyd, The Carbon Diaries 2015

It's January 1st, 2015, and the UK is the first nation to introduce carbon dioxide rationing, in a drastic bid to combat climate change. As her family spirals out of control, Laura Brown chronicles the first year of rationing with scathing abandon. Will her mother become one with her inner wolf? Will her sister give up her weekends in Ibiza? Does her father love the pig more than her? Can her band The Dirty Angels make it big? And will Ravi Datta ever notice her? In these dark days, Laura deals with the issues that really matter: love, floods and pigs. The Carbon Diaries 2015 is one girl's drastic bid to stay sane in a world unravelling at the seams.

It's the year 2015, and global warming is ravaging the environment. In response, the United Kingdom mandates carbon rationing. When her carbon debit card arrives in the mail, sixteen-year-old Laura is just trying to handle the pressure of exams, keep her straight-X punk band on track, and catch the attention of her gorgeous classmate Ravi. But as multiple natural disasters strike and Laura's parents head toward divorce, her world spirals out of control. With the highest-category hurricane in history heading straight toward London, chronicling the daily insanity is all Laura can do to stay grounded in a world where disaster is the norm.

It's January 1st, 2015, and the UK is the first nation to introduce carbon dioxide rationing, in a drastic bid to combat climate change. In the near future, energy wars are raging across the globe, blackouts are a regular occurrence, and the privileged Citizens and the desperate Outsiders of London live very separate lives. Hunter is a Citizen whose father works for the government; yet he cannot help being fascinated by the Outsiders' ingenuity and, in particular their mastery of free running. When he meets Uma, an Outsider, he is quickly drawn into her world and finds himself racing against time—and against the government's cruel Kossak soldiers—to protect everything the Outsiders hold dear.

"[absorbing] a delightful intrigue, with strong characters who develop and grow throughout the book as they face frightening turns." [Publishers Weekly] "eloquent prose and original, vivid details" [The Los Angeles Review] "A luminous and sophisticated novel, *Balance of Fragile Things* offers a compelling view into modern family life with all its complications, secrets, and unbreakable bonds." [Debra Ginsberg, author of *The Grift* and *What the Heart Remembers*] "Here is a new voice in American literature worth celebrating." [Greg Ames, author of *Buffalo Lockjaw*] A multicultural American family comes together just as the world around them begins to fall apart... When Vic Singh finds a dead blue butterfly—out of place in his cold, upstate New York village—he knows something is terribly amiss. Yet he is too busy dodging the bully at his high school, let alone trying to live up to his father's expectations, to look much further into the environmental oddities around him. Meanwhile, for Vic's father, Paul, the ghosts of the past cause him to pressure his son to live up to his Sikh traditions—while his Latvian wife, Maija, is haunted by the present: She's having new and ominous psychic visions even though she can't read her own teenage children. Isabella, attempting to lose herself through her role in a school play, has an illness she can't seem to shake—and Vic, trying to find himself, is spending more time alone in nature. Then Paul's father and Maija's mother move in to the family home, upending the delicate balance of this Indian/Latvian family and its two American teenagers. Yet, as the environmental devastation that Vic's butterflies have forewarned comes to bear, the family comes together in new and unexpected ways. Olivia Chadha's lovely, multilayered novel brings us into an extended family of three generations that strives to remain together in an unstable world.

Welcome to a world controlled by a megalomaniac Lolcat. A world where data pirates, zombies and infobots on surfboards roam free. A world at war over cheese ... When teenager Mikey Malone gets sucked through a wormhole into this parallel world, he discovers a power-crazed corporation is planning to use Earth as a dumping ground for an uncontrollable poisonous algae. It's a race against time for Mikey and his rebel friends to stop the ruthless tyrants from getting their way. A laugh-out-loud-funny new sci-fi series from Costa-shortlisted author Saci Lloyd, perfect for devotees of Terry Pratchett and Douglas Adams.

Only nineteen years old, Nameh is already one of the best Guardians in the Academy. No one at the Academy, not even her best friend, knows about her dark past. Unsatisfied with her challenges as a Guardian, she finds herself searching for ancient magic, forbidden to her. Struggling to control the magic she now possesses, time is running short as the dark forces of the Guild are gaining in power and there are those who say that open war between the Guild and the Vine is just a matter of time. Knowing that something must be done to protect her world, Nameh and her newfound friends set out on a journey to find the Vine to gain whatever knowledge and protection from the Guild they may offer. The further they go, Nameh finds herself not only in near constant battle, but also questioning her heart - perhaps she will find more than friendship, but does she dare to confess that, even to herself?
Approx. 21000 words

In this post-apocalyptic novel from Newbery Medal-winning author Robert C. O'Brien, a teen girl struggling to survive in the wake of unimaginable disaster comes across another survivor. Ann Burden is sixteen years old and completely alone. The world as she once knew it is gone, ravaged by a nuclear war that has taken everyone from her. For the past year, she has lived in a remote valley with no evidence of any other survivors. But the smoke from a distant campfire shatters Ann's solitude. Someone else is still alive and making his way toward the valley. Who is this man? What does he want? Can he be trusted? Both excited and terrified, Ann soon realizes there may be worse things than being the last person on Earth.

#1 NEW YORK TIMES BESTSELLER [NOW A NETFLIX ORIGINAL SERIES With a career, a boyfriend, and a loving family, Piper Kerman barely resembles the reckless young woman who delivered a suitcase of drug money ten years before. But that past has caught up with her. Convicted and sentenced to fifteen months at the infamous federal correctional facility in Danbury, Connecticut, the well-heeled Smith College alumna is now inmate #11187-424—one of the millions of people who disappear [down the rabbit hole] of the American penal system. From her first strip search to her final release, Kerman learns to navigate this strange world with its strictly enforced codes of behavior and arbitrary rules. She meets women from all walks of life, who surprise her with small tokens of generosity, hard words of wisdom, and simple acts of acceptance. Heartbreaking, hilarious, and at times enraging, Kerman's story offers a rare look into the lives of women in prison—why it is we lock so many away and what happens to them when they're there. Praise for *Orange Is the New Black* [Fascinating . . . The true subject of this unforgettable book is female bonding and the ties that even bars can't unbind.] [People (four stars)] I loved this book. It's a story rich with humor, pathos, and redemption. What I did not expect from this memoir was the affection, compassion, and even reverence that Piper Kerman demonstrates for all the women she encountered while she was locked away in jail. I will never forget it. [Elizabeth Gilbert, author of *Eat, Pray, Love*] This book is impossible to put down because [Kerman] could be you. Or your best friend. Or your daughter. [Los Angeles Times] Moving . . . transcends the memoir genre's usual self-centeredness to explore how human beings can always surprise you. [USA Today] It's a compelling awakening, and a harrowing one—both for the reader and for Kerman. [Newsweek

Winner of the Children's Literature Association Edited Book Award From the jaded, wired teenagers of M.T. Anderson's *Feed* to the spirited young rebels of Suzanne Collins' *The Hunger Games* trilogy, the protagonists of Young Adult dystopias are introducing a new generation of readers to the pleasures and challenges of dystopian imaginings. As the dark universes of YA dystopias continue to flood the market, *Contemporary Dystopian Fiction for Young Adults: Brave New Teenagers* offers a critical evaluation of the literary and political potentials of this widespread publishing phenomenon. With its capacity to frighten and warn, dystopian writing powerfully engages with our pressing global concerns: liberty and self-determination, environmental destruction and looming catastrophe, questions of identity and justice, and the increasingly fragile boundaries between technology and the self. When directed at young readers, these dystopian warnings are distilled into exciting adventures with gripping plots and accessible messages that may have the potential to motivate a generation on the cusp of adulthood. This collection enacts a lively debate about the goals and efficacy of YA dystopias, with three major areas of contention: do these texts reinscribe an old didacticism or offer an exciting new frontier in children's literature? Do their political critiques represent conservative or radical ideologies? And finally, are these novels high-minded attempts to educate the young or simply bids to cash in on a formula for commercial success? This collection represents a prismatic and evolving understanding of the genre, illuminating its relevance to children's literature and our wider culture.
