To write a book to explain in simple, non-mathematical terms what superstring theory is is not a simple task. In *The Elegant Universe* Brian Greene, a physicist who works in the area, does a very good job.

Superstrings are a theory of particle physics that lays

# Get Free The Elegant

claim to being the ultimate "Theory of Everything", merging Einstein's relativity and quantum mechanics into an understanding of the physics of the very small and very large in the Universe.
