The Ghost Map tells the story of the 1854 outbreak of cholera in Broad Street, London. More than six hundred people died, but the episode marked a turning point in the understanding of how the disease was transmitted. Dogged investigation by Dr John Snow and Rev Henry Whitehead suggested that, contrary to the accepted view that transmission was airborne ('miasmatic'), victims had been infected ...

the first modern cities in the world. But lacking the infrastructure-garbage removal, clean water, sewers-necessary to support its rapidly expanding population, the city has become the perfect breeding ground for a terrifying disease no one knows how to cure. As the cholera outbreak takes hold, a physician and a local curate are spurred to action-and ultimately solve the most pressing medical riddle of their time. In a triumph of multidisciplinary thinking, Johnson illuminates the intertwined histories of the spread of disease, the rise of cities, and the nature of scientific inquiry, offering

Enemy of All Mankind focuses on one key event--the attack on an Indian treasure ship by Every and his crew--and its surprising repercussions across time and space. It's the gripping tale of one of the most lucrative crimes in history, the first international manhunt, and the trial of the seventeenth century. Johnson uses the extraordinary story of Henry Every and his crimes to explore the emergence of the East India Company, the British Empire, and the modern global marketplace: a densely interconnected planet ruled by nations and corporations.
