Press, ISBN 0674364465) is a book written by Ernst Mayr, first published in 1982. It is subtitled *Diversity, Evolution, and Inheritance*, and is as much a book of philosophy and history as it is of biology. It is a sweeping, academic study of the first 2,400 years of the science of biology. It focuses largely on how the philosophical assumptions of biologists influenced and limited their understanding.
