...

Overview. This collection of short stories, including many new translations, is the first to span the whole of Japan's modern era from the end of the nineteenth century to the present day. Beginning with the first writings to assimilate and rework Western literary traditions, through the flourishing of the short story genre in the cosmopolitan atmosphere of the Taisho era, to the new breed of writers produced under the constraints of literary censorship, and the

The Oxford Handbook of Japanese Philosophy is a foundation-laying reference work that covers, in detail and depth, the entire span of this philosophical tradition, from ancient times to the present. It introduces and examines the most important topics, figures, schools, and texts from the history of philosophical thinking in premodern and modern Japan.

**Stories** The Oxford Handbook of Japanese Linguistics captures the excitement that comes from answering the question, "What can Japanese say about Universal Grammar?" Each of the eighteen chapters takes up a topic in syntax, morphology, acquisition, processing, phonology, or information structure, and, first of all, lays out the core data, followed by critical discussion of the various approaches found in the literature.

The Oxford Starter Dictionary is one of the best dictionaries available for students of Japanese. It may not be as complete as Kodansha's Furigana dictionaries (which are broken up into two separate books) but it is surprisingly excellent for a book which categorizes itself as a "beginner" reference.
