In The Tech Entrepreneur's Survival Guide, founder Bernd Schoner reflects on his experience starting up ThingMagic, an early RFID company, during the dot com bust. In the following edited book...

Most technology startups never make it to the funding stage, and only a small percentage of those that are venture-backed generate a positive return for their investors. An even smaller number of startup founders enjoy a truly prosperous exit. Bernd Schoner cofounded his tech startup during the dot-com bust, navigated it through market crises and internal turmoil, brought it through the global financial meltdown intact, and eventually sold it to a multibillion-dollar, multinational public technology company. In The Tech Entrepreneur's Survival Guide, Bernd shares what he learned and what he wished he knew at the time. He explains the major phases in a technology company's life cycle, helping entrepreneurs avoid common pitfalls and survive crises when they strike. He guides readers from the initial bootstrapping process through venture-capital financing and provides valuable advice on how to sell a technology company profitably—even in a challenging economic environment. Every chapter presents solutions to realworld issues that could otherwise have fatal consequences for a tech venture. Aspiring tech entrepreneurs will learn to: Set up shop: build the team, assemble necessary startup assets (including technology and intellectual property), get legal and financial affairs in order Secure capital: ask for money, nail the term sheet, ask for more money Get out: know when to sell, who to sell to, and how to make it a happy exit for all stakeholders, including the employees Written with deep insight, refreshing candor, and a dash of humor, this comprehensive guide to the often harsh realities of startup life is indispensable for entrepreneurs at any stage. PRAISE FOR THE TECH ENTREPRENEUR'S SURVIVAL GUIDE: "A genuine narrative from the field, with battle scars and self-reflection. Reading this book will help you avoid many pitfalls." -- Nicholas Negroponte, professor at the Massachusetts Institute of Technology Media Lab "There's a lot of great insights and practical advice for the entrepreneur in this book, stuff you normally won't read or hear unless you buy some hard-bitten company founder a few drinks. If you are launching a technology startup, reading this book is the thing you should do first." -- Mark Roberti, founder and editor in chief of RFID Journal "I wish I had read Bernd's book when we founded The Echo Nest. Bernd touches on all the major issues in the initial formation stages of a tech company and many of the problems that come up when the company matures. If you are thinking of founding your own tech startup, read this book first." -- Tristan Jehan, cofounder of The Echo Nest "A visceral, behind-the-scenes guide to technology entrepreneurship. Bernd tells it like it is and presents a universe of solutions to tricky startup situations that can significantly improve the odds of success. Indispensable." -- Larry Begley, cofounder and managing director at .406 Ventures "The best-laid business plans never survive contact with reality. Bernd has provided a comprehensive guide to anticipating the unexpected in the life of a startup." -- Neil Gershenfeld, professor and director of the Massachusetts Institute of Technology Center for Bits and Atoms

If you are an entrepreneur anywhere on the enterprise startup journey, Survival to Thrival is for you. In the beginning, it is simply about Survival -- how not to die? With luck and hard work, it becomes about Thrival -- how do we win? This first book is about the company journey. Building enterprise startups is different. Products take longer. Go-To-Market strategies are more complex. Common wisdom on product market fit is not enough to unlock growth. There is a missing link that we call Go-To-Market Fit. Then, growth happens, and everything changes. The startup suddenly shifts from Survival mode to Thrival mode. Maddeningly, what used to work no longer works for the company and for the people. Becoming a market leader depends on everyone, including the CEO, unlearning the very things that made them successful. Survival to Thrival is a mind-meld of a three-time entrepreneur, a longtime venture capitalist, and other enterprise entrepreneurs, which demystifies building enterprise startups. Our mission is to help you succeed, to anticipate what is next, and most importantly, to let you know that you are not alone.

A software survival guide for non-technical entrepreneurs entering the tech space who want to reduce the uncertainty associated to starting their business, and for seed startups who require support and ideas when dealing with the daily realities of managing the software development process and getting a quality software application built and launched.

Unlock your innate entrepreneurial talents, take rewarding risks, and launch and run a successful business The Entrepreneurial Instinct explains that entrepreneurial success is not the result of education, IQ, access to capital, or even an earth-shattering business plan. Instead, it comes from the instincts that enable entrepreneurs to take risks for gain and utilize adaptable action-oriented business planning. The Entrepreneurial Instinct shows you how to tap into your innate abilities to become a financially successful entrepreneur. Monica Mehta is a Managing Principal at Seventh Capital, a New York-based investment firm where she is actively involved with the day-to-day operations of portfolio companies.

It's Time to Adapt for the New Era of Business In March of 2020, most of the world--along with our politicians--panicked. When presented with an unfamiliar threat in the form of the novel coronavirus, life as we knew it shut down. Without having a plan, we responded in a panic, with no understanding of the true risk to our health or our economy. Our collective reaction to the virus points to one crucial factor: We as a society do not question what we are told--potentially to our own detriment. This book is not about pointing fingers and laying blame. It is about building an inquisitive spirit and forming our own opinions through critical thinking. It is about considering how to achieve success in a new way going forward. In Iconoclasm: A Survival Guide for the Post-Pandemic Economy, author and iconoclast Tony Zorc outlines the strategies and insights of iconoclasm and how to not only survive but thrive in the post-pandemic economy. Iconoclasm is about unlocking doors that seem to be shut--and ushering everyone through them. In these pages as you learn about the methodology of the iconoclast, you'll discover the key to unlocking success in the current and post-pandemic panic economy, professionally and personally.

Like a detailed trail map through the jungle of finance, this book guides readers past small-business financial pitfalls, showing readers how to fine-tune operations and enhance profitability. □ Written by a business owner for business owners, the author makes reading financial statements easy and interesting □ Demonstrates how any business owner can shape unique financial statements to better manage their business □ Breaks down the complexity of finance into easy-to-remember stories about real people and real companies □ Examines and explains each of the three main financial statements and common ratios used by banks and investors □ Shows how to build business dashboards that guide better decision making□and how simple analysis can show the financial future of your business □ Helps small business owners to learn the difference between profits and cash flow, make better decisions by doing real analysis using only basic math, and do forecasting and budgeting quickly and easily

Success, failure, joy, pain, and rejection. Neil Senturia shares the ups and downs of his entrepreneurial life and how the lessons learned along his journey can be applied to all of our lives. The book reads like Neil talks (with the occasional four letter word!) so be prepared for a humorous and insightful read. Two hundred and twenty three of his Baby Rules are included here, and youll have to wait for Volume 2 for the rest.

Real life insights on what it takes to make it in a relationship with an entrepreneur Entrepreneurs are always on the go, looking for the next "startup" challenge. And while they lead very intensely rewarding lives, time is always short and relationships are often long-distant and stressed because of extended periods apart. Coping with these, and other obstacles, are critical if an entrepreneur and their partner intend on staying together!and staying happy. In Startup Life, Brad Feld!a Boulder, Colorado-based entrepreneur turned-venture capitalist!shares his own personal experiences with his wife Amy, offering a series of rich insights into successfully leading a balanced life as a human being who wants to play as hard as he works and who wants to be as fulfilled in life and in work. With this book, Feld distills his twenty years of experience in this field to addresses how the village of startup people can put aside their workaholic ways and lead rewarding lives in all respects. Includes real-life examples of entrepreneurial couples who have had successful relationships and what works for them Provides practical advice for adapting to change and overcoming the inevitable ups and downs associated with the entrepreneurial lifestyle Written by Brad Feld, a thought-leader in this field who has been an early-stage investor and successful entrepreneur for more than twenty years While there's no "secret formula" to relationship success in the world of the entrepreneur, there are ways to making navigation of this territory easier. Startup Life is a well-rounded guide that has the insights and advice you need to succeed in both your personal and business life.
